GENERAL RULES

1. Fair Entries
   a. All entries must be made online. Please go to http://allencounty-openclass.fairentry.com for all entries. If you do not have internet access, there will be computers available when we receive entries at the recreation building Wednesday, July 26 and Thursday, July 27, until noon.
   b. Livestock (beef, sheep, and dairy) must have entries postmarked two weeks prior to the opening of the fair.
   c. All exhibits must be in place by 12 p.m. Thursday. 4-H should check under departments when exhibits need to be in place.

2. Stalls and pens must be kept clean at all times. Arrangements for cleaning of pens should be done prior to removal of animals from the fairgrounds. An exhibitor who fails to clean their pens and general area may be subject to forfeiture of premiums, all or part. Assessment of any penalties will be made by the department superintendent.

3. Every 4-H steer may be mouthed. Determination as to whether steer entries fall within desired age limits for show steers will be based only on the development of the teeth. Any steers that, in the opinion of the official in charge, have their permanent incisors up and in wear will be excluded from entry in show.

4. All livestock must be typical of the breed they represent.

5. All livestock except horses shall be owned by exhibitors from Allen, Woodson, Bourbon, Anderson, Coffey, Neosho, Wilson and Linn counties.

6. Four (4) or more animals per breed must be shown before a champion ribbon is awarded.

7. Horses are to be ridden in the arena area only. Horses are not permitted on the dike or in any area south of the livestock barns. Violators of this rule will be asked to leave the fairgrounds.

8. Persons bringing property of any kind upon the fairgrounds, either as exhibitors or otherwise, do so at their own risk. No liability shall arise from any supervision over exhibits exercised by the association or its employees, but every precaution will be used to protect such property.

9. ALL EXHIBITS MUST BE KEPT ON THE FAIRGROUNDS DURING THE FAIR.

10. No exhibitor shall show more than two entries in the individual classes and no more than one entry in the group classes. No entry shall compete in both breeding and market or feeder classes.

11. Where an exhibitor has little or no competition, the entries shall be judged, and premiums awarded according to the merit of the exhibit.

12. The right is reserved to prorate premiums if funds are insufficient to pay in full.

13. See various departments for special rules applicable.

14. Exhibitors must claim their property at the close of the fair. No exhibits will be removed or disarranged prior to Sunday at 1 p.m., nor without proper identification of the property. No premiums will be paid at checkout. Premiums will be available Monday at 8 a.m. All unclaimed money will become property of the Fair Board on October 3.

15. No sexual signs of any form, no obscenity on t-shirts, stickers or posters, etc. on the fairgrounds.

16. The management of the fair reserves to its board the final rights to interpret the rules and regulations and arbitrarily settle and determine all matters, questions and differences thereto. When no rule appears to cover a given situation, the board will make such rules as are necessary and determine its application to the situation. The rules and regulations of the
Kansas State Fair will be used as a guide in matters not otherwise covered in this book.

17. The Community Building will be **closed to the public Thursday from 7 a.m. until 4 p.m.** for exhibit entry and judging.

    Large Vegetable — One each: Watermelon, Pumpkin, Cabbage, Squash, Eggplant, Cantaloupe or similarly sized vegetable.
    Medium Vegetable — Five each: Cucumbers, Tomatoes, Carrots, Beets, Onions, Peppers, Parsnips, Okra, Potatoes or similar vegetables.

If small fresh vegetables, such as green beans, are used as one of the five different vegetables, a dozen is suggested for a good display. Shelled vegetables should not be exhibited. Quality and condition of the exhibit will be considered. Choose vegetables for exhibits that will hold up well during the fair. Avoid overripe or over-mature specimens. Those that are slightly under-ripe or slightly immature when picked may last longer.

Garden Display Exhibits will be judged: 40 points for quality, 40 points for quantity, 20 points for arrangement or display. Green Thumb Display will be judged: 40 points for quality, 30 points for quantity, 30 points for creativeness of display.

5. Vegetables (Bunches of 5):
   Tops should be cut off between 1”-2” in length. Vegetables will keep better if covered with plastic.

do not have a glass top.

3. Identification should follow the taxonomy included in www.bug-guide.net

4. Each exhibitor is required to identify each box by placing an identification label bearing the exhibitor’s name, county or district and the class. One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Arrange specimens in the box so it can be displayed lengthwise.

5. The number of orders, specimens (and families where required) must be included on the exhibitor’s box identification label. Only adult specimens can be used in collection boxes.

6. Arrangement of specimens: The preferred method is to arrange the insects in groups or rows parallel to the short sides of the box. Arrangements that run lengthwise of the box are frequently downgraded in judging. Specimens are to be arranged by Order in the box, then family where required.

7. For each collection class, two labels will be centered on the pin beneath each specimen. First (closest to the specimen) is the common name label and the second label should include date/locality. Full county/district name, state abbreviation and collector name on the second label are required. The specimens should be collected by the exhibitor and should focus on Kansas and neighboring states. Other specimens from the continental United State may be included as long as properly labeled.

8. Emphasis in judging will be placed on the overall variety of insects represented in the collection, accuracy of identification, skill and technique acquired in mounting of specimens, and overall arrangement and appearance of the collection.

9. Specimens of soft bodied insects such as aphids, lice, termites, etc. should be exhibited in alcohol filled vials; however, the use of alcohol filled vials should be limited to only those specimens that lose their shape when pinned, since the vials pose a significant hazard to the rest of the collection if they become loose in transit.

10. Only specimens of the class Insecta should be included. This means specimens from arachnids, such as spiders, millipedes, centipedes, ticks, mites, etc. will not be judged or included in the overall specimen count.

11. Points will be deducted from collections and notebooks if:
   a. Non-insect and out of state specimens are not in a designated “display only” area.
   b. Any specimens are immature.

12. Link to Kansas State Fair Book for required rules: www.kansas4-h.org/events-activities/fairs/kansas-state-fair/index.html

13. Any major violation of rules will result in the exhibit being dropped one ribbon placing. Examples would include, but are not limited to: incorrect display box size, missing paper work, feet on display boxes, no special project in notebooks, etc

**MONARCH BUTTERFLY EDUCATIONAL DISPLAY RULES**

Monarch Butterflies were officially put on the Endangered Species List on July 21, 2022. Having the scientific name *Danatus plexippus*, this migratory butterfly is well known for its spectacular annual journey of up to 3,000 miles across the Americas. It is now threatened with extinction due to habitat loss and climate change. 4-Hers can play a critical role in helping to bring habitat back for the Monarch Butterfly. They can help educate the public on ways to establish food sanctuaries for this butterfly species and help bring them back from the threat of extinction.

1. Exhibits should teach the public about the Monarch Butterfly and/or ways to protect and conserve it. The information could show nectar sources for adult butterflies and food sources for caterpillars, Monarch tagging activities, collection of native milkweed and then packaging it to give to others to plant, a group working together to plant a Monarch friendly garden, etc.

2. 4-Hers may create a poster, notebook, standard size tri-fold, diorama, slide show or other visual display that shows information on Monarch Butterflies.

3. If a slide show is created, it should be presented on a zip drive along with a printed copy of the presentation.

**CLASSES**

- **Beginning Monarch Butterfly Educational Display** Class – For 4-H members enrolled in Beginning I or II Entomology.
- **Intermediate Monarch Butterfly Educational Display** Class – For 4-H members enrolled in Intermediate Entomology.
- **Advanced Monarch Butterfly Educational Display** Class – For 4-H members enrolled in Advanced Entomology.

**4-H FIBER ARTS**

Superintendent
Carol Crawford

Items will be judged on Tuesday, 9-11 a.m. at the Community Building.

2. No exhibit will be released for any other use. Fiber arts exhibits cannot be used for any of the Fashion Revue classes.

3. Identification Label:
   a. Type or print on 3” x 2 1/2” piece of cloth: class number, county or district, and exhibitor’s name;
   b. Sew or safety-pin this ID label on the corner of the article;
   c. For garments, attach an ID label to the front left shoulder seam, or left side of waistband, as if you were wearing the garment, or lower left corner of flat articles.

Explain whether you created the fabric for a knitted article by hand or by a knitting machine. Explain if the exhibit contains any recycled materials or is made of at least 90% wool.

7. Exhibitors are expected to be enrolled in the fiber art project in which they are entered. When the exhibit is a sewed garment that also includes one or more fiber art techniques (e.g. knitting, crochet, needle arts, or patchwork and quilting), the determination of what division (Clothing or Fiber Arts) and class in which to enter will be left with the 4-H participant.

8. All exhibits that need to be hung MUST have the appropriate hanger, rod, wire or other mechanism attached in order to be properly displayed.
