## **BOURBON COUNTY FAIR GENERAL INFORMATION**

1. Exhibitors and others bringing property of any kind upon the fairgrounds, either as exhibitors or otherwise, do so at their own risk. No liability shall rise from any supervision over exhibits exercised by the association or its helpers, but precaution will be used to protect such property.
2. **Campers:** A \$100.00 reservation and electric hookup fee is due by July 1, 2020. Camping reservation fee will be collected by Allen Warren at 1906 Maple Road, C: 620-224-7761. Each camper will have assigned parking spots. The camping fee is thru Friday night, July 17. Any campers inside the fence on Saturday evening, July 18 will be expected to show their Tractor Pull tickets for each person at the camper or will be asked to leave the grounds. A free RV Dump Station is provided on the West side of the Fairgrounds. No trailers are to be parked close to buildings and/or barns. Designated parking will also be provided for trailers not needing electricity. A pink paid card will be issued when deposit is paid. The card is to be placed in the RV window showing the deposit has been paid.
3. Midnight curfew. All exhibitors staying overnight must be at sleeping quarters at midnight. No one else will be allowed on fairgrounds after that time. Night watchman will be on duty each night and has the authority to enforce curfew.

## **LIVESTOCK HEALTH REQUIREMENTS**

### **GENERAL REQUIREMENTS**

- All animals are subject to examination by the exhibition staff or their representatives and shall be free of clinical signs of infectious or contagious disease.
- Animals determined by exhibition staff to have met listed requirements will not be permitted to exhibit.
- **Certificate of Veterinary Inspection (Health Certificate)**
  - **Kansas Origin Livestock** – Certificate of Veterinary Inspection is not required by KDAH, but can be required at the discretion of each exhibition event.
  - **Livestock Originating from Other States** – All livestock originating outside of Kansas must meet Kansas import requirements and must have a valid Certificate of Veterinary Inspection.

### **CATTLE** – Steers will be examined for ringworm and warts. No tests are required for cattle of Kansas origin.

- All cattle must meet the General Requirements.
- Cattle determined by exhibition staff to have lesions or ringworm, warts or infested with mange will not be permitted to exhibit.
- **Cattle Originating from other States**
  - All cattle must have official ID Certificate of Veterinary Inspection.
  - Dairy cattle that are used for breeding and are six months of age or older shall originate from a herd accredited to be tuberculosis-free or shall be tested negative for tuberculosis within 60 days before entry.
  - All dairy cattle must obtain an import permit number prior to movement into Kansas.

### **GOATS** – All sexually intact (does & bucks) and wethers must be identified with an official USDA premise ID tag or registration tattoo (Scrapie Tag).

- In addition to the General Requirements, all goats must be:
  - Identified with a registered tattoo or an official USDA premises ID tag (Scrapie tag.) Goats identified with registration tattoos must have legible tattoos and must have registration papers for these animals available for inspection.
  - Free of any signs of sore mouth.
  - Free of clinical signs of active fungal (ringworm) infection.

**HORSES** – A negative Coggins test will be required within one year of county fair.

- All horses must meet the General Requirements.
- A comprehensive vaccination protocol is recommended, but not required by KDAH.
- **Kansas Origin Horses** – A valid VS Form 10-11 showing evidence of a negative Equine Infectious Anemia (Coggins) test conducted by a state-approved laboratory within 12 months prior to exhibition is recommended, but not required by KDAH.
- **Horse Originating from Other States** must be accompanied by a valid VS /form 10-11 showing evidence of a negative Equine Infectious Anemia (Coggins) test conducted by a state-approved laboratory within 12 months prior to entry into Kansas. Foals six months of age and younger, accompanying their EIA-negative dams, are exempt from EIA test requirements.

## **POULTRY**

- All poultry must meet the General Requirements.
- **Kansas Origin Poultry** – Per a February 5, 2020 Memo from Kansas Animal Health Commissioner Dr. Justin Smith to Kansas Extension Agents and Poultry Exhibitors:
  - Due to continuation of the nationwide shortage of antigen need to conduct pullorum-typhoid testing in poultry, the Kansas Department of Agriculture Division of Animal Health is waiving certain poultry testing requirements for 2020. As a result, Kansas poultry owners do not need to test their exhibition birds for the pullorum disease while the waiver is in effect.
  - Although we still consider pullorum-typhoid testing important in maintaining pullorum-clean poultry within Kansas, Pullorum disease is rare. Due to this low risk of spread of pullorum disease, and the fact that the antigen for testing will not be available, KDA is waiving the requirement for pullorum-typhoid testing until January 2, 2020
- **Poultry Originating from Other States** – All poultry entering Kansas, except waterfowl, must show proof that they are pullorum-typhoid clean by one of the following methods:
  - **Originate from a NPIP certified U.S.** Pullorum-Typhoid clean flock as evidenced by an official VS Form 9-3, certifying all adult poultry in the flock have had a negative test for pullorum-typhoid within the past year. Adult poultry or any turkeys over 12 weeks of age and any other poultry over 16 weeks of age.
  - Be accompanied by an official VS Form 9-3 signed by the official NPIP representative in the state of origin or by a health certificate that has been issued within the previous 30 days.
  - In addition to the VS 9-3 or CVI, out-of-state poultry must have a “Permit to Ship Poultry or Hatching Eggs” issued by the KDAH within the previous year or a permit number issued by the KDAH office within the previous 15 days.

**SHEEP** – Sheep will be examined for lamb fungus. All sexually intact (ewes & rams) and wethers must be identified with an official USDA premise ID tag (Scrapie tag).

- In addition to the General Requirements, all sheep must be:
  - Identified with an official USDA premises identification tag (Scrapie tag).
  - Free of any signs of sore mouth.
  - Free of clinical signs of active fungal (ringworm) infection, including club lamb fungus.

**SWINE** – A negative pseudo rabies and brucellosis test are not required for Kansas origin swine.

- All swine must meet the General Requirements.
- **Swine Originating from Other States** must also meet one of the following:
  - All swine must have official ID, and ID must be individually listed on the accompanying Certificate of Veterinary Inspection.
  - All swine must obtain an import permit number prior to movement into Kansas.

1. All entries should be submitted in an 18" x 24" x 3.5" wooden display box with a clear plastic top (such as Plexiglass). Boxes can be handmade or purchased as long as they are of the correct size. Please visit the website listed above for box instructions and plans.
2. 4-Hers may choose to use one of two taxonomies:
3. Option A: As printed in "Insects in Kansas" book, or
4. Option B: As printed on the "Insects in Kansas Book: 2016 Revised Taxonomy", which follows [www.bugguide.net](http://www.bugguide.net)
5. Each exhibitor is required to identify each box with two identification labels bearing Exhibitor's name, county or district, the collection class 4-H'er is enrolled in and statement of taxonomy used. One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Arrange specimens in the box so the box can be displayed lengthwise.

6. The number of orders, specimens (and families where required) must be included on both of the exhibitor's box identification labels. Only one adult insect per species can be used in the Collection Boxes and Notebook Classes, unless labeled as male or female and correctly identified.
7. Arrange specimens in groups or rows parallel to the short sides of the box. Specimens are to be arranged by Order in the box, then Family where required.
8. Two labels should be centered on the pin beneath each specimen. First (closest to the specimen) is the common name label and the second label should include date/locality. Full county name and state abbreviation should be on the second label. Collector's name (or host) on the date/locality label is optional.
9. The specimens should be collected by the exhibitor and should focus on Kansas insects. Insects may be collected from one county into bordering states and labeled accordingly. Please refer to "[Entomology Collection Exhibit Resource](#)" for full details on out-of-state insects in collections.

The number of orders, specimens and families (required in Intermediate and Advanced classes) must also be included on the Title Page.
5. Specimen pages should be grouped according to order and should include one page per species. If more than one insect is in the photo, an arrow to indicate identified insect should be used.
6. Date, common name, full county name and state abbreviation should be included for each species. Collector's name on the specimen page is optional.
7. Specimen pages should have two different views of the insect if possible. If pictures are taken on different dates/localities, include information for both.
8. A statement describing the habitat where found/host plant may be included and is encouraged and will be worth a bonus 10 points total, not per page. For Intermediate and Advanced notebooks, this is strongly encouraged.
9. A divider page is to be placed in front of each order of insects with the order name printed on the tab for the page as well on the front of the divider page.
10. For the Intermediate and Advanced classes, insects are also to be grouped by family behind each order divider.
11. If the exhibitor has been in the same class for more than one year, a separate sheet of paper needs to be added stating how many years the exhibitor has been in this class of the project and what the exhibitor did this year to improve their notebook. Place the paper just behind the Title Page in the front of the notebook.
12. A special project must be completed each year and included in the notebook. See project guideline materials for specifications.
13. Refer to the publication "[Entomology Collection Notebook Guidelines](#)" on the Kansas 4-H Entomology web page for more detailed rules for exhibiting.

## 4-H FORESTRY DEPARTMENT

**Superintendent:** Ashley Endicott

**Assistant Superintendents:** Shayln Crossland, Jewel Endicott

### FORESTRY DIVISION

1. All leaf exhibits are to be mounted on 8½” x 11” heavy stock paper and placed in loose leaf binders. (Magnetic or adhesive filler sheets for photographic prints or sheet protectors are recommended.) Twigs and fruit collections may be exhibited in whatever manner you choose. Maximum tri fold size is 3’ x 4’. Resources for exhibiting are located on the Kansas 4-H forestry project page: <https://www.kansas4-h.org/projects/agriculture-and-natural-resources/plant-sciences/forestry.html>
2. Name, club, age, and year in project should be on front cover or in a prominent location.
3. Leaves should be identified with an appropriate label located near the leaf on the same page.
4. These labels should include (1) The proper common name as listed in the 4H334, “List of Native Kansas Forest Trees”; (2) Location (city and/or county) where collected; and (3) date (day, month, year) or (month, day, year) collected.
5. Divide specimens into the following two sections: Native Kansas Trees, and Non-Native Trees. Use this resource for reference: (<https://www.bookstore.ksre.ksu.edu/pubs/4H334.pdf>)
6. New specimens are those specimens collected during the current 4-H year and cannot be a duplicate tree species of previously displayed specimens.
7. Group specimens according to the years collected (ex. “old-previous years” and “new”)
8. Variations of varieties do not count as different species or specimens.
9. When replacing previously displayed samples, due to degradation, improper mounting or incorrect identification, the specimen label must also be updated. Replacements do not count as new specimens. Replacements should be displayed in the “old previous” section of the display.
10. If you retrieve information for your forestry exhibit, you must include a reference citation to the source.
11. In all leaf collections, exhibit one complete leaf where possible. If leaf is too large, exhibit as much as possible. Sketch in reduced scale the entire leaf and illustrate where the exhibited portion is from. Note: A “leaflet” is incorrect when displayed as the complete leaf for the tree.
12. All work must show originality. Leaf collections and displays should not closely resemble work done by others in the same club.

Fort Cinema - Overall Champion Forestry Exhibit - Movie Pass

Dean & Gail Bailey – Overall Reserve Champion Forestry Exhibit - \$5.00

**DEPARTMENT PREMIUMS: \$1.50, \$1.00, \$.75**

#### **4-H GEOLOGY & LAPIDARY DEPARTMENT**

**Superintendent:** Destiny Foulk

**Assistant Superintendents:** Joe Foulk Jr., Dakota Hazelbaker, Sydney Pruitt

1. The exhibit box should be 18" x 24" x 3½". Plexiglas covers are required. Boxes with glass covers WILL NOT be accepted. All specimens are to be arranged across the narrow (18") dimension of the

exhibit box, making the exhibit 18” across the top and 24” deep exactly. If a box has a sliding Plexiglas cover, it must be removable from the top. Screws, locks, or other devices that would prevent judges from removing the cover should not be used. For Lapidary classes, the dimensions of the box should be appropriate for the display but should not exceed 18” x 24” x 3 1/2”.

2. Each exhibitor is required to identify each display box by placing an identification label bearing name, county or district, and number of specimens in the upper left-hand corner of the Plexiglas cover (inside-use clear double-sided tape to adhere gummed labels), and by attaching a label with the same information on the lower right corner of the box (outside).
3. Geology specimens should be labeled with the number of the specimen, date collected, specimen name or description, and locality (county only) where collected.
4. For the geology display classes, specimens should be mounted in the box by proper groups: rocks, minerals, fossils. Fossils must be identified to the Phylum, Class and Genus level. Genus name is to begin with a capital letter. Species name is all lower case. Genus and species names must either be italicized or underlined, not both. The words “phylum, class, genus” on labels are to be spelled out, not abbreviated. More than one specimen of the same kind of rock or mineral or species of a fossil may be exhibited if this duplication represents different geological formations. Specimen label must show this distinction (Fort Hays limestone, not just limestone; calcite from the Greenhorn Formation, not just calcite; Phylum: Brachiopoda Class: Articulata Genus: Composita from the Morrill Limestone Member, not just Phylum: Brachiopoda Class: Articulata Genus: Composita).
5. For geology display classes all specimens must be collected by the participant (not purchased) from locations in Kansas, with the exception of Tri-State Mining Area specimens collected from these three adjacent counties: Ottawa County, OK; Newton and Jasper Counties, MO. Other out of state specimens will not count in the minimum number for the class, nor will they be considered in the judging.
