## Key Ideas

### *Key Idea: Recognizing Resources*

Definition: Money is limited so we need to find other resources to use to get what we need. Recognizing resources means finding different ways to use what we have to get what we need.

### *Key Idea: Allocating Resources*

Definition: Our resources include things like skills, time, and money. When we choose what to use to get the things we need, we are allocating resources.

### *Key Idea: Saving*

Some things cost more money than we have at one time. Saving means putting money aside until we have enough to buy what we want.
