

Curious George Saves His Pennies

Curious George wants to buy a toy train at a local toy store. The man with the yellow hat suggests that George save money for the train. When George reaches his goal, he loses all his money on the way to the toy store.

Some things to Think and Talk About

- When Curious George found the train and showed the Man in the Yellow Hat, what did the man tell George?
- Curious George wanted to save money quickly so that he didn't have to wait so long to buy the train. What did George do to get the money?
- Curious George jumped into his raked pile of leaves. It was fun, but then what did he have to do next?
- George saved enough money to buy his train and was on his way to the toy store when he stopped to help other children at the park. What did George do with his money?
- What did George do to thank Hana for keeping his bank safe? When other people help you, how do you thank them?

Key Ideas

Key Idea: Decision Making

Many times there are different ways to do things or different ways to use resources. Decision making means making a choice among what to do or what to use.

Key Idea: Sharing and Borrowing

There are two kinds of sharing: giving and borrowing. A gift doesn't have to be paid for or returned. Something borrowed, like a library book, must be returned.

K-State Research and Extension is an equal opportunity provider and employer. K-State Research and Extension is committed to making its services, activities, and programs accessible to all participants.
